## BACKGROUND

The Montana Primary Care Association, in collaboration with the Montana Hospital Association, and support from JG Research and Evaluation (JGRE), completed an inventory of behavioral health services and recovery supports for individuals who misuse opioids (Opioid Use Disorder (OUD) and/or illicit use) within the 11 counties that constitute the Montana Hi-Line. These include the counties of: Glacier, Toole, Hill, Blaine, Phillips, Valley, Daniels, Sheridan, McCone, Richland, and Roosevelt, in addition to the surrounding counties of Pondera, Liberty, and Dawson.

The inventory documents are in a dynamic format, allowing for maintenance of the inventory over time, ensuring that the resource inventory can continue to be of value to practitioners in the region after the conclusion of the project period. The goals of the project are:

- Identify resources that can be supports to individuals misuse opioids (Opioid Use Disorder (OUD) and/or illicit use) within a hospital setting along the Hi-Line
- Identify resources that support recovery for individuals with misuse opioids along the Hi-Line.

## DATA APPROACH

### SECONDARY DATA

JGRE's approach was to look at existing Secondary datasets and create an inventory of resources for individuals who misuse opioids along the Hi-Line. The second datasets JGRE used included:

- Board of Behavioral Health Licensing Data
- National Survey of Substance Abuse Treatment Services
- SAMHSA Treatment Locator
- Existing resource guides and inventories – NAMI, LAC, others to be identified

### PRIMARY DATA

At this point, JGRE staff identified gaps in the data and developed a survey to gather additional data from community stakeholders along the Hi-Line to complete the inventory. The primary data collection methods included:

Table 1: *Methods Summary*

Wave	Description	Contacts	Total Surveys Completed
Wave 1	Developed initial contact list	374 contacts	
Wave 2	Email recruitment (4 rounds of emails)		Surveys completed: 15
Wave 3	Follow up phone calls for unreachable contacts (4 rounds)		Surveys completed: 28
Total		Total contacts: 374	Total surveys completed:43

### RESOURCES/SUPPORT WITH OUTREACH/RECRUITMENT

In addition to looking at primary and secondary data, JGRE staff coordinated with other organizations to leverage contacts and knowledge in the Hi-Line area. These organizations include:

- Mountain Pacific Quality Health
- Montana Primary Care Association
- Montana Hospital Association
- Montana Health Network
- Voices of Hope

### FUNDING

This project was supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS). The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government. For more information, please visit [HRSA.gov](https://www.hrsa.gov).

## SERVICES DEFINITIONS

- **PREVENTION SERVICES** Can include but are not limited to interagency coalitions/taskforces that address opioid use, Prevention Specialists, community education/training programs such as Mental Health First Aid and QPR, etc.
- **NALOXONE AVAILABILITY** Can include but are not limited to Opioid Overdose Response Teams, naloxone (Narcan) access for first responders or community members, naloxone take home kits, etc.
- 💧 **SYRINGE EXCHANGE** Can include but are not limited to syringe exchanges or other harm reduction efforts for individuals who misuse opioids.
- ▲ **DRUG DISPOSAL LOCATIONS** Can include but are not limited to drug disposal locations or other medication take back events.
- ◆ **MEDICAL SUPPORTS** Can include but are not limited to medical providers who treat patients with OUD (Opioid Use Disorder), prescribe buprenorphine or other MOUD (Medications for Opioid Use Disorder), assist with referrals to manage care for patients with OUD, detox services, MOUD used in detention facilities, MOUD used in Emergency Departments, alternative pain management providers, telehealth services, Federally Qualified Health Centers, Rural Health Centers, etc.
- \* **THERAPEUTIC/RECOVERY SUPPORTS** Therapeutic Services: Can include but are not limited to Licensed Addiction Counselors (LACs), Licensed Clinical Social Workers (LCSW), Licensed Clinical Professional (LCPC), Peer Support Specialist, telehealth therapeutic services, etc. who specifically treat individuals who misuse opioids (OUD and/or illicit use).

Recovery Services: Can include but are not limited to Recovery Residences, peer-ed support groups, drop-in centers, NA meetings, telehealth recovery services, etc.

## HOW TO USE

This document is separated by county. Within each county is a list of services available for use with contact information as well as information regarding that particular service. The services are organized by categories listed above. Each category of service has been assigned a symbol as a visual aide.

# ORGANIZATION CONTACT LIST

## ORGANIZATION CONTACT KEY

- Contacts reached out to via email or phone call and who did not complete the survey/respond to contact attempts
- ***Contacts who completed the Hi-Line survey/spoke to JGRE staff member***

\*Please note, more than one individual from an organization may have completed the survey

## BLAINE COUNTY

- MSU Extension Blaine County
- ***Blaine County Public Health***
- Harlem EMS
- Harlem Schools
- HELP Committee

### Public Health Workforce Expansion in Indian Country

<https://www.rmtlc.org/public-health-workforce-expansion-in-indian-country/>

Description: OPIOID OVERDOSE PROJECT (OOP): This is a five-year project period (August 2018 to August 2023), funded by the Centers for Disease Control (CDC) with the applicant award number 1 NU38OT000275 awarded to RMTLC. The goal is to increase the public health workforce among American Indian/Alaska Native (AI/AN) populations to address the opioid epidemic in their tribal community. To achieve this goal, PHWEIC has established four major goals to support the OOP project. PHWEIC is also tasked to strengthen partnerships between Tribal Community Colleges (TCC), Tribal Health Departments (THD), and State Universities/Colleges to engage current tribal college Public Health Associate (PHA) students to enter public health related professions
